PROFILE

Motivated B.Tech Information Technology student with hands-on internship experience in Cybersecurity. Skilled in Python, Linux, HTML, CSS, and networking fundamentals, with an interest in SOC and Vulnerability Assessment. Quick learner with strong problem-solving, communication, and teamwork skills, eager to contribute and grow in the cybersecurity field.

EDUCATION AND TRAINING

B.Tech – Information Technology Degree **2023 - Present**

S.A ENGINEERING COLLEGE

Currently pursuing a B.Tech in Information Technology with a CGPA of 7.68 (up to Semester VI), building a strong foundation in software development, cybersecurity, networking, and through academic coursework and hands-on projects.

Higher Secondary Education **2022 - 2023**

Shri Krishnaswamy Matric Higher Seconday School

Completed Higher Secondary education in the Computer Science stream with 60%, developing a foundation Computer Science, and analytical problem-solving.

WORK EXPERIENCE

Cyber Security Intern - Arjun Vision Tech Solution

- Gained practical exposure to cybersecurity fundamentals.
- Learned about threat identification and risk management techniques. Studied secure system practices and protection strategies.
- Explored how organizations monitor and prevent cyber attacks.

Cyber Security Intern - IARM Information Security Pvt. Ltd. **July 2026 (1 Month)**

- Monitored and analyzed security events using SIEM tools to identify and investigate potential threats.
- Performed basic Vulnerability Assessment (VA) and gained exposure to VAPT methodologies and security testing tools.
- Worked with Linux, Active Directory, networking fundamentals, and incident response workflows in a SOC environment.
- Assisted in security monitoring, log analysis, and incident investigation following SOC best practices.

ACHIEVEMENTS

Cyber Security Intern - Arjun Vision Tech Solution

- MAGNUS25 – Participant,Paper Presentation
- ELITEZ24 – Participant, Paper Presentation
- Agentic AI Master Class – Workshop Participant
- MindQuest – Secured 2nd Position in Technical Quiz

CERTIFICATIONS

CISCO Networking Academy - Introduction to Cyber Security

- Learned core cybersecurity concepts, threats, and security practices.
- Gained knowledge of network security and cyber defense methods.
- Understood cyber attacks, vulnerabilities, and data protection techniques.
- Explored cybersecurity career paths and industry fundamentals.

CISCO Networking Academy - Cyber Threat Management (Currently Pursuing)

- Developed skills in detecting and responding to cybersecurity threats.
- Learned techniques for monitoring network activities and identifying suspicious behavior.
- Gained understanding of incident handling and threat mitigation strategies.
- Explored real-world cyber threat scenarios and security operations concepts.

PROJECT

Advanced System Log Analyzer for Anomaly Detection and Cyber Forensic Investigation

- Developed a system to detect abnormal activities from system logs.
- Used AI-based techniques to identify cyber attack patterns.
- Integrated automated email alerts for threat notifications.
- Improved security through real-time monitoring and detection.

SKILLS

- Python
- HTML , CSS
- Linux OS (basic)
- Cyber Security Fundamentals
- Network Security
- Threat Detection (Basic)
- Prompt engineering

LANGUAGES

- ENGLISH
- TAMIL
- HINDI

DECLARATION

I hereby declare that the information provided is true and accurate to the best of my knowledge. I am committed to maintaining professionalism, integrity, and continuous learning in my career.
